CE marked

Caution:
Keep out of reach of children.
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Highly flammable liquid and vapour. Causes serious eye irritation. Do not breathe spray. If medical advice is needed, have product container to hand.

Medicare's 30%, 40% and 50% DEET insect repellent sprays provide between 3-10 hours of protection against stings, bites and ticks. Whether you are sitting in your garden, spending a day out exploring the country or visiting a tropical holiday resort, you always want to avoid being stung or bitten. DEET is most effective against mosquitoes (malaria), ticks, and reasonably effective against large horseflies, gnats and midges.

FEATURES

- Available in 3 strengths.
- Comes in an easy to use spray bottle.
- Helps protect against mosquitoes, ticks, midges, gnats and large horseflies.

DIRECTIONS:

Hold and spray at least 15cm from the skin.
